

Project Overview

As of May 3, 2012

Hilliard-Rome Road – Westchester Woods Boulevard to Roberts Road

Description and Benefits: Project consists of widening and reconstruction of Hilliard-Rome Road from Westchester Wood Blvd. to south of Roberts Road. Project length is approximately 1.19 miles, and includes adding three lanes, sidewalks, bike lane, *Americans with Disabilities Act*-compliant curb ramps, tree lawn and utility relocation. The project will provide a safer pedestrian, vehicular and bicycle corridor. Traffic in each direction will be maintained at all times during construction.

Schedule: Construction to be completed by autumn 2012.

Status: Construction in progress. Traffic is maintained in each direction. Left turns are restricted through the project limits.

Costs:

Design, right-of-way acquisition and utility relocation	\$ 5,900,000
Construction	\$ 8,523,605
